# **SITUATION SUMMARY**

## **Waterman Road Fire, Elk Grove, Sacramento County (New/Final)**

On 06/09/15 at 1400 hours, a fire broke out in the Waterman Road and Bond Road area of Elk Grove in Sacramento County.

### **Per Local Media:**

- The fire quickly went from 2 to 3 alarms and evacuation orders were put in place for residents living on Rushing Creek Drive.
- Shifting high winds created problems for fire crews.
- Cosumnes Fire Department ordered additional resources, including a helicopter.
- There are no reported injuries.
- Fire crews face extensive mop up work.

### **Per Cal OES Duty Officers:**

- At approximately 1540 hours, the fire was 100% contained at 25 acres
- Per the California Utilities Emergency Association (CUEA), there are 3,000 customers without power due to high winds. SMUD had 8 crews on scene working to restore power, and has assigned additional crews due to the wind.
- There is one confirmed residence damaged and several backyard fences sustained fire damage
- Residents evacuated along Rushing Creek Drive have been allowed to return to their homes.
- There are no requests for assistance and no unmet needs at this time.
- This will be the final report on this incident unless circumstances warrant.

# **SITUATION SUMMARY**

## **SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County**

- On 05/19/15 at 1243 hours the California State Warning Center received a report from the Santa Barbara County Fire Department indicating that a ¼ mile sheen was observed off of Refugio State Beach, near Goleta, Santa Barbara County.
- 06/08/2015 Incident Command Post (ICP) Executive Summary attached.

## **Proclamations**

- Governor Brown Proclaims a State of Emergency in Santa Barbara County to Assist Oil Spill Response.
- <http://gov.ca.gov/news.php?id=18967>
- A Proclamation from Santa Barbara County has been received. The County is not requesting CDAA at this time.
- On 05/22/15 City of Goleta submitted a Proclamation of Local Emergency. The City is not requesting CDAA at this time.
- On 05/23/15 the University of California Santa Barbara submitted a Proclamation of Campus Emergency with no requests at this time.

## **Activations**

On 05/27/15:

- The State Operations Center is activated at Level 1.
- The Southern Region Emergency Operations Center (REOC) is activated at Level 1.
- Santa Barbara EOC is activated at Level 1.
- The ICP, is located at 461 S. Fairview Ave., in Goleta, and has an Operational Period of 48 hours: 0700 to 0659 hours
- Ventura County OA EOC is activated at Level 1.

# **SITUATION SUMMARY**

## **SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County**

### **Deployments**

- Unified Command
  - Federal on Scene Coordinator: US Coast Guard (USCG) & the Environmental Protection Agency (EPA).
  - State on Scene Coordinator: CA State Parks & CA Fish and Wildlife (CDFW).
  - Local on Scene Coordinator: Santa Barbara County Office of Emergency Management (OEM).
  - Tribal Coordination: Santa Ynez Chumash Tribe, Owl Clan Consultant representing the three Clans: Barbareno, Coastal and Southern Owl.
  - Responsible Party: Plains All American Pipeline LLC.
- Cal OES Deployments
  - (1) one Cal OES Emergency Services Coordinator (ESC), Agency Representative
  - (1) one Cal OES ESC, Territory Representative, Santa Barbara County EOC

### **Responding Agencies**

#### **Federal**

- USCG, Pipeline and Hazardous Materials Safety Administration (PHMSA), EPA, US Fish and Wildlife, and NOAA.

#### **State**

- Cal OES, CA State Parks, Cal OSPR, CA Fish and Wildlife, Cal Volunteers, CA Department of Transportation, California Highway Patrol , University of California Santa Barbara and California Coastal Commission.

#### **Local**

- Santa Barbara County OEM, Ventura County Sheriff's OES, Santa Barbara County Fire Department, City of Santa Barbara, Santa Barbara County Sheriff , Gaviota Police Department, Santa Ynez Chumash Tribe, Owl Clan Consultant representing the three Clans: Barbareno, Coastal and Southern Owl.

# **SITUATION SUMMARY**

## **SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County**

### **• Response and Clean Up Efforts**

- Per Cal OES Southern Region Emergency Operations Center Situation Report:
- The ICP is overseeing operations along 96.5 miles of the shoreline of Santa Barbara and Ventura Counties and approximately 30 miles offshore.
- Impacts to the shoreline have been identified as follows:
  - As of 06/09/15 at 1800 hours, the following has been collected onshore:
    - 660 cubic yards of oiled sand
    - 660 cubic yards of oiled vegetation
    - 375 cubic yards of oiled debris/PPE
    - 3,840 cubic yards of oiled soil
    - 110 cubic yards of culvert soil
    - 180 yards of absorbent
  - Chumash Tribal Members continue to provide cultural and archeological guidance and oversight as needed. As of 6/09/15 at 1800 hours 47 cultural monitors and 11 archeologists are supporting the response.

### **Wildlife**

- The Oiled Wildlife Care Network (OCWN) continues to conduct wildlife monitoring and recovery efforts.
- As of 06/08/15 at 1800 hours, CDFW reported 60 birds captured, 158 birds dead for a cumulative total of 218 Birds; 46 mammals captured, 85 mammals dead for a cumulative total of 131 .
- A planned release of 6-10 Pelicans back into the wild is scheduled for Friday, 06/12/15.

# SITUATION SUMMARY

## SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

### Resources

- Per Cal OES Southern Region Emergency Operations Center Situation Report:
- [As of 06/09/15 at 1800 hours](#), there are a total of 1,255 personnel from all organizations currently responding to the incident. There are 101 personnel in the ICP, 1,154 in field operations.
- There are currently 3 vessels being utilized to perform boom, skimming operations, and decontamination offshore. Vessels not currently in use are being staged in the Ventura Harbor.
- There are 2 contracted aircraft (helos) deployed to this incident.

### Public Information

- Joint Info Center (JIC) has been established.
  - JIC WEBSITE: <http://www.refugioresponse.com>
  - Future media inquiries regarding Refugio State Beach oil spill should call: **805-770-3682**.
- A Third-Party Claims telephone number has been established for businesses and others to report economic losses or costs due to the oil spill: 1-866-753-3619.
- [June 9 – U.S. Coast Guard Government Affairs Officer will be present at the Ventura County Board of Supervisors and City of Goleta hearings.](#)
- [June 10-One-on-one media briefings are scheduled for Refugio Beach at 1030 hours. The Unified Command will be discussing current status of the response and anticipated next steps.](#)

### Volunteers

- California Volunteers is leading the efforts to coordinate spontaneous volunteer activities related to the Refugio Incident. Volunteer activities are currently on hold. Cal Volunteers will continue to monitor the situation and identify any additional opportunities for volunteer beach cleanup events.
- The public can assist by visiting this website <https://calspillwatch.dfg.ca.gov/Spill-Archive/Refugio-Incident/Volunteer> or by reporting oiled wildlife by calling 877-UCD-OWCN (not a volunteer line).

# **SITUATION SUMMARY**

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

## **Weather of Concern**

### **Flash Flood Watch**

- Flash Flood Watch in effect from 6/10/2015 1100 hours to 2300 hours for Lassen, Plumas, Nevada, Placer, Sierra, El Dorado, Modoc, Mono and Alpine Counties.

### **Flash Flood Watch**

- Flash Flood Watch in effect from 6/10/2015 1100 hours to 2300 hours for Inyo County.

- **Active Weather Warnings, Watches and Advisories by County:** [http://www.wrh.noaa.gov/sto/brief/wwwa\\_bc\\_cal.php](http://www.wrh.noaa.gov/sto/brief/wwwa_bc_cal.php)

# Wednesday – Flash Flood Watch

## Timing

11 am – 11 pm Wednesday

## Source

Remnants of Tropical Storm  
Blanca

## Where

Widespread showers throughout  
the region with the heaviest  
rainfall from Lake Tahoe to the  
Oregon Border.

## Main Impacts

Substantial localized rainfall  
may cause flooding, rockslides  
on roadways.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

An upper level low pressure system will continue moving eastward today across central California. Scattered showers and some thunderstorms will occur primarily across inland areas. Temperatures will increase Thursday and Friday however near seasonal temperatures will occur near the coast. Dry weather will return Thursday and Friday.

#### **Medford Weather:**

The upper level disturbance responsible for all the showers and thunderstorms across the southern and eastern portions of the region yesterday will move into central California just south of the bay area this morning, then into southern Nevada tonight. Many areas in northern California and over the east side received wetting rainfall yesterday with Canby raws (near Alturas) reporting 0.74 inches with a thunderstorm.. East-northeast flow around the northern periphery of the low will continue to allow disturbances to rotate into northeast California and northwest Nevada this morning. So, showers are likely to persist and perhaps even become more numerous in some areas while gradually moving southward. Meanwhile, a much drier air mass has begun to work into northern and western sections of the region. This drier air, especially at mid and upper levels, will continue to press south and eastward later this morning and this afternoon as a trough moves across Washington and Oregon. Instability is still sufficient across portions of southern Siskiyou and Modoc counties this afternoon for isolated thunderstorms, but it won't be nearly as active as it was yesterday. Local downpours are still possible in any of the heavier showers. The drier air mass will win out across the entire region this evening pushing all the significant moisture to the south and east overnight. High pressure nosing into the area from the Pacific will bring a very warm, dry weather pattern late this week into this weekend. Inland high temperatures will run about 5-15 degrees above normal.

#### **Reno Weather:**

Remnants of hurricane Blanca will bring the possibility of locally heavy rainfall this afternoon and evening across the sierra and northwest Nevada. This may lead to areas of flash flooding and a flash flood watch remains in effect 11 am through 11 pm today. Drier and warmer conditions return for the end of the week into the weekend.

#### **San Francisco Weather:**

A chance of showers and thunderstorms will continue across the region through today as an upper level low pressure system moves into central California. Dry conditions will return by Thursday, and warmer weather is expected Thursday and Friday. A cooling trend is then forecast to occur over the weekend.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

#### **Sacramento Weather:**

Showers and thunderstorms are expected over interior northern California through early evening with cooler temperatures. Warmer temperatures return Thursday into the weekend with mainly dry weather.

.

#### **Hanford Weather:**

An upper level low off the central coast with tropical moisture will track inland today then exit into the great basin Wednesday night. This system will bring showers and isolated thunderstorms across central California through tonight.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

It will be partly to mostly cloudy today and little more humid than usual. There is a slight chance of thunderstorms across the interior this afternoon and evening. Except for night through morning low clouds Thursday will be mostly clear. Moisture will return on Friday with a slight chance of showers and thunderstorms in the deserts and mountains. The temperatures will stay above normal through early next week.

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

A drier air mass will move in today however daytime heating in the mountains and high deserts will contribute to a chance for afternoon and evening thunderstorms in those areas. Thursday will be dry with considerable near-coastal stratus and patchy fog in the morning. A low pressure trough moving by to our north will bring a slight chance for showers and storms Friday afternoon and evening over the mountains and high deserts. Beginning this weekend and continuing through much of next week, a building dome of high pressure will bring warmer than normal weather to the region with dry conditions. The marine layer will become shallower and relegated to the near-coastal areas.

#### **Southeast California Weather:**

Leftover moisture from the remains of tropical depression Blanca is expected to produce widely scattered showers and thunderstorms across parts south central Arizona today, with a few lingering showers and thunderstorms again on Thursday afternoon across the higher terrain north and east of phoenix. Drier air and a return to normal temperatures is expected for Friday, before another weak weather disturbance once again brings a few afternoon and evening showers and thunderstorms to the higher terrain of south central Arizona over the weekend. High pressure building in from the west will then bring dry conditions and above normal temperatures to the entire region during the early and middle parts of next week.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

An upper low will move across central California by the middle of the week bringing chances for showers and thunderstorms across the North Coast through Wednesday. High temperatures across the interior will be above normal through the week while near seasonal temperatures will persist near the coast. Drier conditions will return Thursday and Friday.

#### **Medford Weather:**

As the upper level low moves into central California later tonight into Wednesday, the mid to upper level flow will become northerly across Northern California and the air mass will begin to dry out from northwest to southeast. Scattered showers and isolated thunderstorms are still expected on Wednesday, specifically southern and eastern Siskiyou and Modoc counties. Temperatures will be about 5 to 15 degrees cooler than they are today.

#### **Reno Weather:**

Very warm and dry conditions will be replaced by an approaching area of low pressure aloft today. This low will bring increased moisture and a good chance of thunderstorms today. Some of these storms could become severe late this afternoon. More widespread showers, with some locally heavy rain are likely Wednesday. Dry and warm conditions return for the end of the week before another area of low pressure increases thunderstorm chances into the weekend.

#### **San Francisco Weather:**

An upper level system will spread shower and thunderstorm chances northward today and tonight and into Wednesday. Daytime temperatures will be significantly more moderate.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Sacramento Weather:**

Threat of showers and thunderstorms increases today and Wednesday with cooling trend. Warmer temperatures return Thursday into the weekend with mainly dry weather.

#### **Hanford Weather:**

Upper level low off the coast will bring a northward surge of tropical moisture from the remnants of Tropical Storm Blanca today. Thunderstorms are possible today across the entire central California interior. Thunderstorms are possible across the Sierra through Friday with a continuation of above normal temperatures.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Low pressure will approach the area and entrain moisture from the remnants of Tropical Storm Blanca. This will result in a chance of showers and thunderstorms today. On Wednesday, dry conditions are anticipated except for a slight chance of showers and thunderstorms over the mountains. Dry and seasonable conditions are expected Thursday through next Monday.

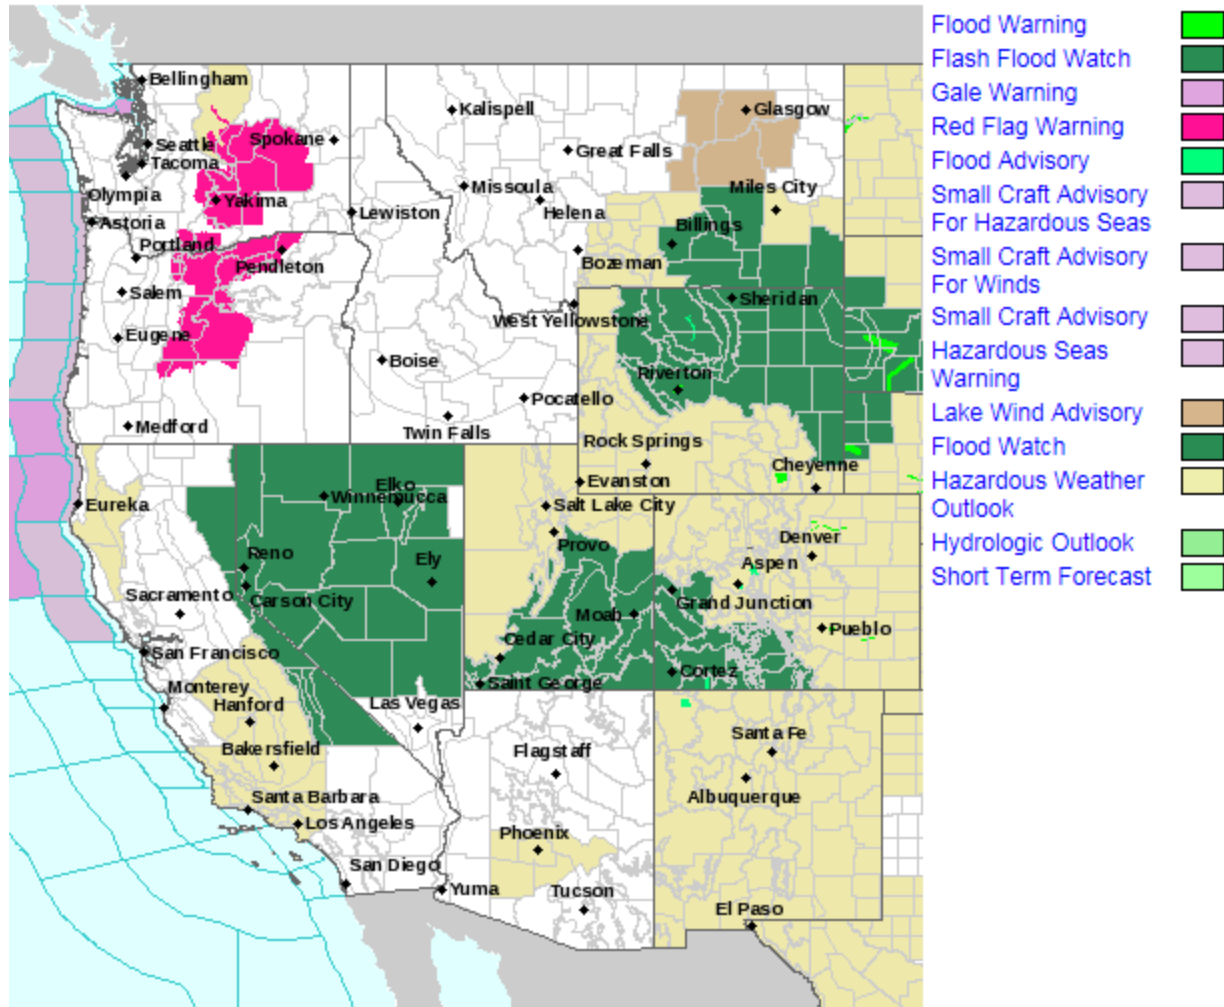

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

Moisture from the remnants of former Hurricane Blanca will bring higher humidities today and clouds with cooler inland temperatures. There will be scattered showers with the greatest potential for thunderstorms with locally heavy rainfall near the mountains in the afternoon. For Wednesday, a trough of low pressure moving inland through California will bring drying aloft. Residual lower level moisture with higher humidities will remain in place with a slight chance of afternoon thunderstorms near the San Bernardino Mountains. The marine layer will return to coastal areas tonight, slowly deepen into Thursday, then become gradually shallower into next week. There are also small chances for thunderstorms near the San Bernardino Mountains Friday afternoon. Inland temperatures will gradually become warmer beginning Thursday into early next week.

#### **Southeast California Weather:**

Moisture associated with the remnants of Tropical Depression Blanca will be moving slowly from today into Wednesday, resulting in an increased chance of rainfall across the area along with cooler temperatures. Drier air and a return to normal temperatures will return late in the week through the weekend.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

### **Local Emergency Proclamations:**

**A total of 57 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:**

- 25 Counties: El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 11 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Montague (Siskiyou County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), and City of West Sacramento (Yolo County), City of Willits (Mendocino County), City of Manteca (San Joaquin County), City of Porterville (Tulare County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

# **UPCOMING EVENTS, TRAINING, EXERCISES**

## **Major Exercises in the Region**

### **Coastal Trident 2015 Regional Port and Maritime Security Program**

- Coastal Trident 2015 Regional Port and Maritime Security Program will be conducting field experiments and operations based exercises throughout San Diego, Santa Barbara, and Ventura County from Monday, 06/08/15 through Friday, 06/12/15.
